

HOW TO DISINFECT YOUR MOBILE DEVICE

- Unplug all external power sources, devices and cables
- Use a 70 percent isopropyl alcohol wipe or Clorox Disinfecting Wipes, gently wipe the exterior surfaces of the phone.

WHAT TO AVOID

- Don't use bleach, abrasives or spray aerosol cleaning agents directly onto the phone
- Avoid getting moisture in any openings and don't submerge the phone in any cleaning agents
- Avoid excessive wiping, which might cause damage.
