

QFleet's emissions reduction journey | 2010 – 2025 and beyond

QFleet's emission reduction journey is a key contributor in Queensland's progress toward net zero emissions by 2050. Motivated to reduce fleet emissions in a sustainable way, QFleet's latest initiative The QFleet Vehicle Emissions Reduction Strategy 2025-2030 aims to reduce tailpipe emissions in QFleet's entire fleet by 10 per cent by 2030.
